

The Five-Leaf Eco-Awards invite you to

The Basic Certificate --- Information and Equipping Workshop

The Five Leaf Eco-Awards are a new recognition program for churches working to care for God's Creation. We are looking to set up a trial in Canberra and for churches interested in becoming involved. We invite representatives from interested churches to our Basic Certificate Information and Equipping Workshop.

The Basic Certificate --- Information and Equipping workshop will allow participants to:

- Ask questions about the program
- Learn the requirements to earn the awards
- Speak to the founder of Five Leaf
- Hear what other churches have done
- Learn about available grants and rebates for environmental projects
- Practice the skills necessary to be an environmental change leader

The workshop is on 20th June 2009 at the O'Connor Uniting Church Hall from 10am to 3pm. Participants are asked to bring a cut lunch. For more information contact:
